

	EthCC : ETHEREUM COMMUNITY CONFERENCES 2019												
	Scalability	dApps	Crypto Economics	Web 3.0	Zero to Hero	DAO / Governance							
	UX / UI	Ecosystem	Core Ethereum	Decentralized Finance	Security	Dev Tools							
		Gaming	Privacy	Browser & Files									
	Day 1 - Tuesday, March 5th												
	Paul Painlevé	Jean-Baptiste Say	Robert Faure	abbé Grégoire	Jean Fourastié	classroom							
08:30	Registration & Coffee						08:30						
08:35							08:35						
08:40							08:40						
08:45							08:45						
08:50							08:50						
08:55							08:55						
09:00							09:00						
09:05							09:05						
09:10	Registration & Coffee						09:10						
09:15							09:15						
09:20							09:20						
09:25							09:25						
09:30							Lane Rettig : "Ethereum will save the world. Here's how."	Cassius Kiani: "-Initial Design Offering"	Alexandre Cognard: "Discover Arianee Protocol and Live Demo"	Jack Platts: "Introduction - Web3 Track"	Consensys team: "-From Zero To Hero" (English)	WORKSHOP Rob Stupay, Yann Levreau, François Guezengar, Nina Breznik, Liana Husikyan, Alexander Praetorius : "Introduction to Remix"--	09:30
09:35													09:35
09:40										Ryan Zomer: "The State of Web3 & Polkadot Governance"			09:40
09:45													09:45
09:50				09:50									
09:55				09:55									
10:00	Justin Drake: "Ethereum 2.0—the phase 0 spec"	Itamar Lesuisse: "Enabling frictionless access to Dapps, today"	Vidal Chriqui: "How to build your decentralized booking service (DBS) on top of ERC-808"	François Brémont: "Substrate meets iExec: How to Build a Domain-Specific, Token-Based Chain"		10:00							
10:05					10:05								
10:10					10:10								
10:15					10:15								
10:20		Louis Millon: "-Hiding the blockchain : mass adoption through use-case focus."	Logan Saether: "-Web3-Enabled Social Networks"		10:20								
10:25					10:25								
10:30		Thibaut Sardan: "Turn your smartphone into a hardware wallet"	Jack Spallone: "Web3 and Music Discovery"	Aidan Hyman: "Moving from sidechains to parachains"		10:30							
10:35						10:35							
10:40						10:40							
10:45						10:45							
10:50						10:50							
10:55						10:55							
11:00	COFFEE BREAK	COFFEE BREAK	COFFEE BREAK			11:00							
11:05						11:05							
11:10						11:10							
11:15	Charles Hamel : "Open your Dapp to 100 million users"	Will Harborne: "-Decentralised Exchanges - Crossing the UX Chasm"	Yaron Velner: "Bringing Liquidity On-chain - Lesson Learned"	Antoine Najarin: "The user experience for Web 3: Challenges and Opportunities"		11:15							
11:20						11:20							
11:25						11:25							
11:30						11:30							
11:35						11:35							
11:40						11:40							
11:45	Evan Van Ness : "-Things I want to see at the app layer"	Jordi Baylina: "IDEN3: Scalable distributed identity infrastructure using zero-knowledge proofs to guarantee privacy."	Griffin Anderson: "Transparency in the blockchain space"	Reto Trüchler: "Kaleidoscope: A Standard Framework for Financial Contracts"		11:45							
11:50						11:50							
11:55						11:55							
12:00						12:00							
12:05	LUNCH BREAK	Pelle Braendgaard: "Building Identity into Layer 1 and Layer 2 through Signed Typed Data"	Olivier Sarrouy: "Pando, a decentralized VCS based on IPFS and Aragon"	Billie Chen		12:05							
12:10						12:10							
12:15						12:15							
12:20						12:20							
12:25					12:25								
12:30					12:30								
12:35					12:35								
12:40					12:40								
12:45	Philipp Langhans: "Update from the Mist team"	LUNCH BREAK	LUNCH BREAK	Rob Habermeier	Tim Bansemer: "How distributed governance unlocks collective coordination and intelligence"	12:45							
12:50						12:50							
12:55						12:55							
13:00						13:00							
13:05	Aya Miyaguchi: "Communication from the Ethereum Foundation"		Charles St.Louis: "Developing Full-Scale Platforms on Ethereum"	LUNCH BREAK	LUNCH BREAK	13:05							
13:10								13:10					
13:15								13:15					
13:20								13:20					
13:25				13:25									
13:30	Craig Williams: "Reducing Mainnet Transactions: A Case Study"		Ivaylo Kirilov: "Ethereum and Java"			13:30							
13:35							13:35						
13:40							13:40						
13:45							13:45						
13:50						13:50							
13:55					13:55								
14:00					14:00								
14:05	Mokhtar Bacha: "#SHIPL"			Ivo Georgiev		14:05							
14:10						14:10							

14:15	Vlad Zamfir: "Tech Talk on Scalability"		Qianchen Yu: "Beyond the technology, how about building a legally-compliant DAO?"	Mike Becker: "10p2p: A Modular P2P Networking Stack"	WORKSHOP Auryn Macmillan: "What is your reputation worth?"		14:15		
14:20								14:20	
14:25			Pedro Gomes: "-Wallet Standards for Mainstream Adoption"					14:25	
14:30					Clement Lesaege: "From Doges to Tokens: Curated list disputes with Kleros"			14:30	
14:35								14:35	
14:40								14:40	
14:45								14:45	
14:50								14:50	
14:55			Piotr Kosiński: "Decentralized automation"		Yoav Weiss: "The Game Theory behind Gas stations network (EIP 1613)"	Ewald van der Horst	WORKSHOP Raphael Mazzet: "A multi-agent TCR simulation tool"		14:55
15:00									
15:05								15:05	
15:10								15:10	
15:15								15:15	
15:20					WORKSHOP Rob Stupay, Yann Levreau, François Guezengar, Nina Breznik, Liana Husikyan, Alexander Praetorius: "Advanced Remix Workshop"				15:20
15:25		COFFEE BREAK	COFFEE BREAK						15:25
15:30	Kevin Owocki: "Mesh Network of Human Beings"								15:30
15:35									15:35
15:40									15:40
15:45							15:45		
15:50							15:50		
15:55	COFFEE BREAK						15:55		
16:00		Fabrice Croiseaux: "Ethereum Decentralized Digital Identity Trust Services"	Jacques Caffon: "ERC777: Improved token safety and security"	PANEL TALK			16:00		
16:05			Kendall Cole: "Lessons Learned from the DevRel Community (And How to Apply Them)"				16:05		
16:10							16:10		
16:15						WORKSHOP Nick Gheorghita: "EthPM: Smart Contract Package Management"		16:15	
16:20								16:20	
16:25	Eseoghene Mentie: "-What we can learn from ancient decentralised civilisation"	Thomas Chataigner: "Blockchain: The UX strikes back"						16:25	
16:30								16:30	
16:35								16:35	
16:40								16:40	
16:45								16:45	
16:50	Lisa Chu: "Rebuilding the Internet with Exodus"		WORKSHOP Mo Dong: "Celer SDK: Build Layer-2 Board Games"		WORKSHOP Simona Pop: "Incentivization and community building"			16:50	
16:55		Austin Griffith: "Meta Transactions and the Burner Wallet"						16:55	
17:00								17:00	
17:05							17:05		
17:10	Lukasz Glen: "Pay-as-you-use Golem"						17:10		
17:15							17:15		
17:20			Anuj Dasgupta: "Exodus: A Protocol for Non-contentious Hard Forks"				17:20		
17:25							17:25		
17:30							17:30		
17:35	John Lilic: "Spectacular Growth Happening Now: Why Ethereum Must Focus on Asia"						17:35		
17:40		Julien Béranger: "DAOs : How to (finally) kickstart adoption?"				17:40			
17:45						17:45			
17:50					COFFEE BREAK		17:50		
17:55							17:55		
18:00							18:00		
18:05							18:05		
18:10							18:10		
18:15							18:15		
18:20		Lucian Boca: "Indexed Ethereum Data: Boosting dApp development with Alethio's Core API"	Mamy Reimbazely: "Tools and Simulation of Eth1.0"	Jeff Burrows, Oskar Thoren, and Robert Rich: "Whisper v2 Implementation"			18:20		
18:25								18:25	
18:30								18:30	
18:35								18:35	
18:40								18:40	
18:45		Pavlo Makarov: "DApp Dev Ecosystem & Community"	Julien Bouteloup: "Decentralised Geospatial Layer For Earth Observation"					18:45	
18:50								18:50	
18:55					Sack Phatks: "Conclusion and announcement"			18:55	
19:00								19:00	
19:05								19:05	
19:10								19:10	
19:15								19:15	
19:20								19:20	
19:25								19:25	
19:30								19:30	
19:35								19:35	
19:40								19:40	
19:45								19:45	
19:50								19:50	
19:55								19:55	
20:00								20:00	
20:05								20:05	
20:10								20:10	
20:15								20:15	
20:20								20:20	
20:25								20:25	
20:30								20:30	
20:35								20:35
