EthCC : ETHEREUM COMMUNITY CONFERENCES 2019

Scalability	dApps	Crypto Economics	Web 3.0	Zero to Hero	DAO / Governance
UX / UI	Ecosystem	Core Ethereum	Decentralized Finance	Security	Dev Tools
	Gaming	Privacy	Browser & Files		

Day 2 - Wednesday, March 6th

Time	Paul Painlevé	Jean-Baptiste Say	Robert Faure	abbé Grégoire	Jean Fourastié	classroom
08:30 – 09:25	Registration & Coffee					
09:30	Rick Dudley: "Parsimonious answers to difficult questions"	Alex Beregszaszi: "~Solidity & Yul"	Sajida Zouarhi: "Hell Hound"	Adam Dossa: "Modelling Securities on Ethereum - Challenges and Opportunities"	Arthur Gervais: "NOCUST – A Non-Custodial 2nd-Layer Financial Intermediary"	
09:55		Andrej Bencic: "Invalid Opcode: Understanding the EVM through the eyes of a Solidity Stack Tracer"	Tyler Mulvihill: "These times, they are a changing: The Supply Chain Trilemma"	Corbin Page: "Security Tokens: Building an open financial system"	Vincent Danos: "off-chain techniques for real-world smart contracts"	WORKSHOP Shawn Tabrizi
10:20		Rosco Kalis: "Using events to unit test smart contracts"		Xavier Lavayssière: "From legal entities to digital ecosystem"	COFFEE BREAK	
10:35	Hudson Jameson: "Ethereum Governance in 2019"				Henri Pihkala: "Launching Monoplasma - highly scalable, a one-to-many payments system for digital cooperatives and revenue sharing platforms "	
10:45		COFFEE BREAK	COFFEE BREAK			
10:50	COFFEE BREAK					
10:55					Mehdi Zerouali : "Lighthouse: a security-focused Ethereum Serenity client"	
11:05	Martin Lundfall: "~Subjectivity vs. Objectivity in decentralized systems"	Guillaume Balle: "ewasm ethereum 1.x update"	Matias Nisenson: "Blockchain Gaming"	COFFEE BREAK		
11:25				Alice Henshaw: "Towards a fully functional security token"	Angel Versetti: "The convergence of IoT and Blockchain"	
11:30		Patrick Ventuzelo: "Let's dig inside Ethereum Smart Contracts compiled to WebAssembly"	Marie Franville: "Lessons learned from making a Blockchain video game"		CH Patrick McCorry: "PISA - Accountable Third Party Watching Service for State channels"	
11:55	Ben Livshits: "Growing a compelling product with the help of blockchain at Brave"	Primavera de Filippi: "In blockchain we trust(less): The rise and fall of blockchain governance"	Nicolas Julia: "How NFTs are pushing the next wave of crypto adoption"	Chris Hermida: "Stablecoin Trends"	LUNCH BREAK	
12:20	Loredana Cirstea: "The Importance of Proof of Wonder"			Gustav Arentoft: "Introduction to MakerDAO"		WORKSHOP Dillon Chen
12:40		LUNCH BREAK	LUNCH BREAK			
12:50	LUNCH BREAK			WORKSHOP Max Stein: "How to keep track of your digital assets"	Adrian Brink: "PoS Validation: Social and Technical Attacks"	
13:05	LUNCH BREAK		Rob Dawson: "Pantheon 1.0"	Lefteris Karapetsas: "Rotkehlchen: How a robin can help you manage your crypto and other financial assets"		
13:20				Luc Falempin: "How on-chain identity management could help mass adoption of security tokens"	Adan Sanchez De Pedro: "The Future of Blockchain Oracles — What Decentralization Really Means"	
13:35	Jorge Izquierdo: "Upgrading Aragon Voting infrastructure"					
13:40			Vanessa Bridge: "Uncle rate analysis and the impact of mining strategies"			
13:55				LUNCH BREAK		
14:05	QJ Wang: "~ECF 2.0"	Vlad Zamfir: "Governance"				

1

Time						Time
14:20–14:40	**Afri Schoedon:** "Görli: Bootstrapping a Cross-Client Proof-of-Authority Network"		**WORKSHOP Aditya Asgaonkar:** "Safety & Liveness in CBC Casper"	**Stephane Gosselin:** "ERC1400: the evolution of a family of standards""	**WORKSHOP Robert Edstrom:** "Maintainable infrastructure for dapp engineers"	14:20–14:40
14:45–15:05	**Augusto Hack:** "Raiden Network Update"	COFFEE BREAK		**Juan D. Mendieta:** "Liquidity for the tokenized world"		**WORKSHOP Ivo Georgiev :** "Live-code payment channels in Substrate"	14:45–15:05
15:10–15:45	**Dauriel Team:** "Tokenized Securities - The future of Capital markets"		**Amaury Martiny:** "Build your DApp on a Light Client"	**Mark Beylin:** "Beyond EIPs: the practical realities of standardizing interoperable marketplaces"			15:10–15:45
15:50–15:55				COFFEE BREAK			15:50–15:55
16:00–16:25	COFFEE BREAK	**Hugh Karp:** "Legally linked DAO's"	**Philippe Honigman:** "What is Ownership in a DAO? - The Tribute Network Case"		COFFEE BREAK	COFFEE BREAK	16:00–16:25
16:30–16:45	**Axel Simon:** "You Can't Commoditise Trust"		COFFEE BREAK	**Tomislav Mamić:** "BridgeDAO - a smart contract in the control of the physical world"	**Workshop Andrés Junge:** "Self Sovereign Identity hands-on"	**WORKSHOP Adrian Brink**	16:30–16:45
16:50–17:15		**Niran Babalola:** "Slate Governance for Effective Token Votes"	**Matan Field:** "Holographic consensus, scalable DAO"	**Fanny Lakoubay:** "What the f**ck is blockchain art?"			16:50–17:15
17:20–17:45	**CH Mike Barrow:** "Uncorking the wine world: tokenization, transparency and traceability"	**Lili Feyerabend** - Re-engineering holidays by building eCards on smart contracts and IPFS with Radi.Cards	**Federico Rocchi:** "The evolution of the blockchain's ecosystem"	**Daniel Kronovet:** "Decentralized Capital Allocation via Budgeting Boxes"	**CH Vanessa Grellet:** "Panel on luxury and art on blockchain"		17:20–17:45
17:50–18:10	**Ricardo J. Mendez:** "The Truth Of The Thing"	**Antoine Detante**: "--Blockchain & privacy: a concrete example with Parity Private Transactions"	**James Pitts**: "Magicians, Philosophers, and Cat Herders: Self-Organizing in a Decentralized Galaxy"				17:50–18:10
18:15–18:25	**Simon de la Rouviere:** "The State of Curation Markets"	**Adrian Brink:** "PoS Validation: Social and Technical Attacks"	**Thibauld Favre:** "Financing decentralized projects with a Continuous DAO"				18:15–18:25
18:30–18:50		**Alex Gluchowski:** "Solving scalability with Zero Knowledge Proofs"	**Griff Green:** "The Path Towards Decentralized Governance & True Sovereignty"				18:30–18:50
18:55–19:15		**Dmitry Bespalov:** "State of the iOS application development for Ethereum dapps."	**Yalda Mousavinia:** "The Seven Principles of Human-Work DAOs"				18:55–19:15

TBD

CLOSING
